New Formulation for SA8 Concentrated Fabric Softener 1L #110480

It now features a new & unique formula designed by our Amway scientists.

The formula and process used in the manufacturing of this product were adjusted in order to meet Amway's high standards for product performance and the Safer Choice ingredient requirements outlined by the United States Environmental Protection Agency (EPA). This new formula also maintains the existing Bioquest formula and Safer Choice label.

While the formula has been updated, the scent and colour are consistent with the previous version, and continue to deliver consistent softening performance. Starting with a low initial thickness (or viscosity) ensures our fabric softener continue to provide fast dispersion and uniform coverage, even in very cold water. The safety, quality and effectiveness of the SA8 Concentrated Fabric Softener 1L (110480) is not affected by this update.

Amway is constantly evaluating its product portfolio, so we can deliver the best products, at the best value in an efficient and effective manner.

SA8 浓缩衣物柔软剂 1L #110480 采用全新配方

现采用由我们的安利科学家所创制的全新独特配方。

调整制造此项产品所使用的配方和程序，是为了符合安利对产品性能的高超标准和美国环保署（EPA）所制订的Safer Choice更安全选择的成分条规。这个新配方也保留了现有的Bioquest 配方和Safer Choice标签。

尽管配方已更新，但产品的香味和颜色与之前的版本一致，并继续提供一致的软化效能。从较低的初始厚度（或粘度）开始，能确保我们的衣物柔软剂即使在非常冷的水中也能继续提供快速散化和均匀覆盖。SA8浓缩衣物柔软剂1L（110480）的安全性、品质和有效性不受此配方更新的影响。

安利不断评估其产品组合，以便我们能够提供最佳产品，并在效率和效益方面展现最佳价值。
