5 Key Skin Nutrition Requirements

Purify

Keep skin's **Defense Barrier** clean, calm and free of skin-stressing irritants.

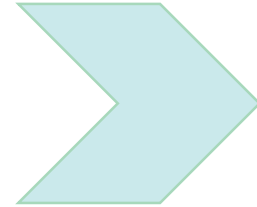

Defense Barrier
Stop external causes of irritation before they can penetrate skin

Balance

Stabilize and nurture a more optimized **Microbiome Barrier**.

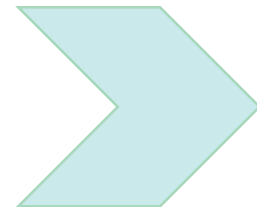

Microbiome Barrier
Stabilizes the microbiome to help skin stay in a healthy balance

**Skin microbiome:
An ecosystem of bacteria on the skin surface*

Rebuild

Strengthen and repair skin's **Support Barrier** by revitalizing the extracellular matrix (ECM).

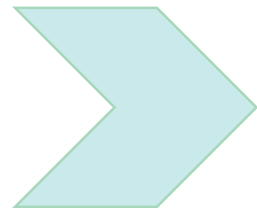

Support Barrier
Maintains the ECM by both protecting and boosting repair

**Extracellular Matrix (ECM):
Essential framework present in cells and tissues*

Moisturize

Saturate skin with lasting hydration and fortify its **Moisture Barrier**.

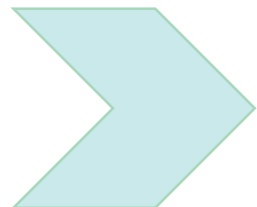

Moisture Barrier
Keeps skin plumped with essential hydration

Protect

Amplify skin's **Environmental Barrier** with SPF and antioxidants.

Environmental Barrier
Protect skin from environmental aggressors like UV rays, blue light and oxidants
