In order to create an environment that allows ABOs to focus on health and wellness solutions, our home care portfolio will be streamlined, focusing on key products. We are suggesting a portfolio with sustainable products under an efficient supply chain model, keeping our mission to help ABOs keep their home a happy and healthy place.

To make it happen, we are taking the three steps below:

- We are focusing on our 3 legacy products: Laundry, Surface, and Dish plus Pursue products which play an important role in hygiene and sanitation.
- We will optimize our supply chains by transitioning key products to regional production to provide better service to the markets and ABOs.
- We will continue to pursue sustainability with products that own Safer choice and Bioquest formula.
