BETTER ME

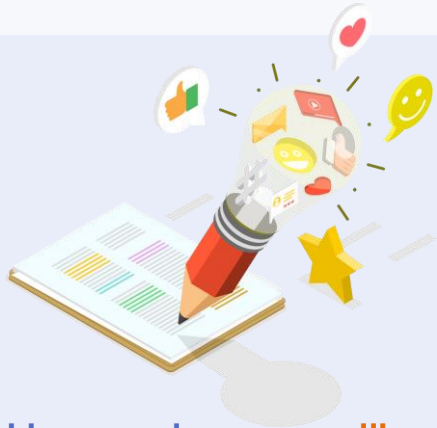

Storytelling

Making people **see you, like you,**
and even **want to be you**

Behind every successful Amway business is a compelling story that is waiting to be told. And who better than a skilled storyteller to share that story with the people them.

The **“Better Me” Storytelling (BMS) Workshop** is specifically designed to enhance the storytelling skills of Leaders, ensuring their audience remains captivated and eager for more. It coaches leaders in discovering the most compelling way to narrate their Amway journey.

The **FIVE lessons** in this workshop will help empower Leaders to craft appealing stories for different business scenarios, whether it's to attract prospects, build trust, share products solutions or present their Amway business.

So whether it's a story about

Their successful quest to embrace a healthier lifestyle

The countless lives who they've helped transform

The dreams and goals they've achieved their Amway business
