A NATURAL STEP TOWARDS COMFORTABLE JOINT MOVEMENT

Glucosamine and chondroitin for
flexibility and mobility

**Clinically shown to improve
range of motion and joint
movement.**

 **NUTRILITE™**

JOINT HEALTH

Support 3 key areas of joint health: Cushioning, Lubrication and Comfort

To help keep joint movement comfortable and natural, Nutrilite scientists have created Nutrilite™ Joint Health from a proprietary blend of ingredients that focuses support on three key areas of joint health: cushioning, lubrication and comfort.

This powerful combination of ingredients helps you maintain healthy cartilage between your joints. Our bodies keep our joints comfortable by producing glucosamine. It supports joint structure and smooth function.

Take the natural step towards comfortable joint movement with help from Nutrilite Joint Health.

Combines A Broad Spectrum Of
Ingredients To Help Maintain Joint
Health And Improve Range Of Motion
And Joint Movement

POWERFUL BLEND OF 7 JOINT-SUPPORTING INGREDIENTS

Glucosamine Sulfate is a clinically tested ingredient shown to help improve range of motion and joint movement.

Chondroitin Sulfate is an important structural component of cartilage. It provides resistance to compression in joints, and it works together with glucosamine to serve as a cushion within the joints. Clinical studies show that glucosamine is more effective when combined with chondroitin.

Boswellia is a gum extract from the Boswellia tree long used in Ayurvedic medicine in India. It promotes joint comfort and a healthy range of motion.

Methylsulfonyl Methane (MSM) provides sulfur which is needed to form cartilage. It can support joint comfort and when combined with glucosamine, it's shown to support healthy cartilage.

Manganese & Boron maintain the health of joints.

Hyaluronic Acid (HA) is a component found in the synovial fluid in the joint cavity. It helps lubricate and cushion the joint.

EXCLUSIVE NUTRILITE ACEROLA CHERRY CONCENTRATE

- Contains vitamin C from acerola cherries grown on our own certified organic farm
- An exclusive citrus bioflavonoid complex, providing antioxidant protection to support the integrity of healthy cartilage
- Vitamin C helps support collagen growth. Collagen is a main component of cartilage

CREATING THE PERFECT TABLET

Nutrilite™ Joint Health went through an advanced granulation process, combines all the complimentary ingredients into a tablet form that provides higher dosage and effectiveness. The exclusive method used to physically bond the ingredients together makes for a more uniform and consistent product.

It takes incredible expertise throughout the process to create a perfect tablet that holds all the ingredients together yet disintegrates in the body within minutes.

Every 2 tablets of Nutrilite Joint Health provide:
Glucosamine Sulfate (Crab, Shrimp) 750mg

Amount per day 1500 mg

Did You Know?

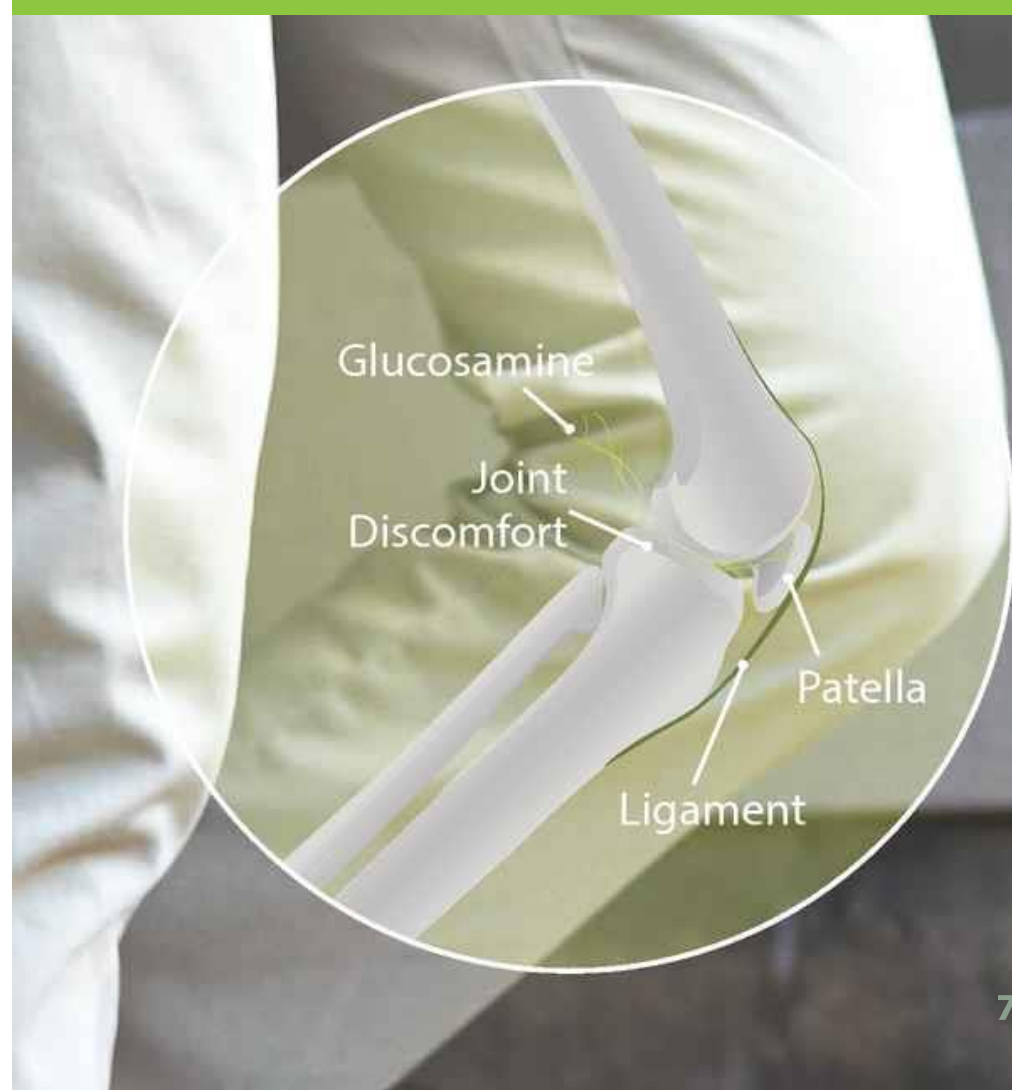

To keep us moving, our bodies rely heavily on the joints that connect our muscles and bones. Walking, running, jumping, even typing on a keyboard, requires healthy joints that move freely and provide support to all our moving parts.

As we age, we need more glucosamine than our body can produce, and the wear and tear on our bodies can begin to break down our cartilage and joint structure. Aches and pains can result that limit our movement and activity, and, in some cases, lead to osteoarthritis.

It is difficult to get the glucosamine your joints need from diet alone.

JOINT HEALTH MATTERS

OTHER INFORMATION

SUGGESTED USE

Take 2 tablets, twice a day, preferably with meals

ADVISORIES/PRECAUTIONS

Children under 12 years of age, pregnant women or nursing mothers, or anyone with medical condition should consult with a physician before using this product

STORAGE

Store in a cool, dry place

INGREDIENTS

Sodium, Vitamin C (ascorbic acid), Glucosamine Sulfate (Crab, Shrimp), OptiMSM[®]† (Methylsulfonylmethane), Chondroitin Sulfate (Shark), Boron Glycinate, Manganese Amino Acid Chelate, Hyaluronic Acid, 5-LOXIN[®] †Boswellia Serrata Extract, Acerola concentrate, Citrus Bioflavanoids (Citrus paradisi, Citrus reticulata x C. sinensis, Citrus limon), Microcrystalline Cellulose, Acacia, Silicon Dioxide, Hydroxypropyl Methylcellulose, Sodium Carboxymethylcellulose, Magnesium Stearate, Carnauba Wax

PRODUCTION/EXPIRY DATE

The expiry date is printed on the product packaging

COUNT

120 tablets

HEALTH NOTES

No artificial colourants, flavours or preservatives added
